Introduction / Announcement

Welcome to the PC Club Computer User Group Build-It-Yourself website. This site is exclusively for members of a recognized Computer User Group which has previously scheduled the Intel Build-Your-Own (BYO) seminar.

Here you will find information, discussions, and tips relating to the BYO seminars and building your own computer. Although you will be building your system in the seminar workshop, this site will assist user group officers and members in finding relevant information.

Please feel free to contact us if you have any questions. We look forward to being your systems provider and in working with your user group to provide user group members with great products at great prices.

TIP OF THE MONTH

When installing components (CPU, Memory) onto the motherboard, remember to have the motherboard on top of the anti-static bag it came in.

About PC Club

We hope to become your local computer partner, even if we don't yet have a store in your area. Being "Your Local Computer Partner" is not only our company slogan, but also our promise to be here for your technological needs. With over 60 locations in 12 states, PC Club has been serving proudly the local communities of California, Arizona, Washington, Oregon, Ohio, Nevada, Oklahoma, Utah, Colorado, New Mexico, Indiana, Pennsylvania. We're expanding rapidly, so chances are we'll have a store in your area soon if not now; however, we're committed to meet your needs. Since 1992, PC Club has become one of the premier providers of computer products and services for homes and businesses. Being ranked the 6th largest computer retailer nationwide can be directly attributed to the knowledgeable, helpful staff you can find at our local stores and corporate headquarters in Southern California. We deliver emerging technology quickly and easily to our customers daily.

The Deals

In cooperation with Intel, we are able to offer exclusive high performance computers featuring exciting new technologies at an unbelievable price! Best of all, you can customize your system to provide you with exactly what you want at the price you want to pay. Simply start with one of the three suggested systems and upgrade, add or downgrade components until you have your dream computer!

The system features:

- Your choice of one of the new dual-core Intel® Pentium® D Processors for a smooth, high-performance computing experience, an Intel® Celeron® D for incredible value, or an Intel® Pentium® 4 Processor with Hyper-Threading Technology for those seeking a balance of performance and value.
- An Intel® Media Series (945GNTLR) or Executive Series (945GNTLKR) motherboard w/Socket LGA775, featuring the Intel 945G Express chipset with: Advance Intel GMA950 graphics (DirectX 9, 3D accelerator), Intel High-Definition (HD) Audio, PCI Express, Intel 10/100 Ethernet, Hi-Speed USB 2.0, IEEE 1394, and Intel SATA and RAID support.
- Your choice of 512MB, 1GB, 2GB, or 4GB of fast DDR2 Memory (533 or 667).
- Your choice of Serial ATA (SATA) hard drive(s):
 - 80GB, 160GB, or 320GB Western Digital 7200RPM Hard Drive, 8MB Cache
 - 73.4GB 10,000RPM Seagate Hard Drive
 - When you order two identical drives, you can optionally configure them in a striped RAID array for a single-volume, high-performance disk drive
- Your choice of 1 or 2 CD/DVD drives from the following:
 - 52x32x52 CD-RW Drive
 - 52x32x52 DVD/CD-RW Combo Drive
 - 16x DVD-ROM drive
 - 16x Double-Layer DVD+/-RW drive
 - 16x Double-Layer HP LightScribe DVD+/-RW drive, for laser-labeling without a printer (on approved media)

- Floppy Diskette
- Coolermaster Centurion Case (Black with Silver or Blue Trim) w/front panel USB 2.0 and IE 1394 connectors and headphone/microphone audio jacks
- Your choice of a 380W or 450W Power Supply w/24-pin motherboard connector
- Windows XP Home, Windows XP Professional, or Linspire (Linux) Operating systems

**Select your computer user group to order yours today!
Shipping is FREE!**

Please note that this offering is limited to members of computer user groups who are participating in the Intel BYO User Group program sponsored by Intel. If your group is not on the list above, please contact your User Group officer today and ask them to schedule your group for an Intel Build-Your-Own PC Seminar at www.intel.com/go/pcug.

Please note that unless you indicate otherwise, your system will be shipped in your name (along with all the other systems ordered) to the address designated by the responsible officer for your group on or just before the date of your workshop. This special price is intended for actual participants of the workshop who build their own system with the guidance and assistance of your local computer user group – so be sure you also notify your local user group workshop leader that you intend to participate. If you are a member of a PC User Group that is not listed above and you have experience in building your own system and would like to order the parts without support or instructions, then please e-mail your request to orders@webworkingservices.com. Include the name of your user group and your contact information.
